

## List of allergens for Meica products

Last update: 02 August 2023

### Important information

1. During manufacturing of our products, the ingredients identified in this list are used according to the recipe. Despite all care, however slightest traces of other allergens can't always be fully excluded for technical production reasons.

**X = used according to the recipe**  
**s = traces possible**

2. Our recipes are subject to change, therefore it is possible that a product at the same time is commercially available in various versions during this transition period. **Relevant for the allergens contained in the product is the list of ingredients on the label.** We would therefore ask you to always check the composition of the products based on the ingredients list of the label.

3. This allergen table is intended for personal use only. Reproduction or publication of data is only allowed with the consent of Meica GmbH & Co. KG.

#### 4. Disclaimer

Due to the points previously mentioned the Meica GmbH & Co. KG is not liable for health problems that occur relying upon the information given in the table.

As a brand manufacturer we would like to inform you extensively. For further questions about the allergen table please do not hesitate to contact us personally.
